

Human Givens  
Institute

## Declaration of Interests Register

Created: November 2015

Last updated: June 2024

To include: HGI Board Members, HGI Registration and Professional Standards Committee (RPSC) Members, HGI Membership Secretary, External Oversight Committee for Human Givens Therapy (EOCHGT), HGI Appeal Pool Panel

### **Guidance Statement (issued to the above when making declarations)**

You are required to register any interest which might conflict with your role as a Board member of the Human Givens Institute, HGI RPSC, or any of the other above-named bodies. A conflict of interest arises if you or a close family member has any relationship with another body which would influence your objectivity in making decisions. This could be a financial interest, for example where you stand to gain if a certain decision is made, or it could be a more indirect interest in a legal or reputational outcome. It is not possible to cover all types of interest in a policy statement, so if you are in any doubt about whether an interest needs to be declared you should seek guidance from the Board Secretary.

If you have a potential conflict of interest you have two responsibilities. Firstly, you must declare any relationships which might give rise to a conflict on the Declaration of Interest Register which is compiled annually and published in the annual report.

Secondly, if in the course of your duties as a Board member, or other post holder as specified in the tables below, a conflict of interest arises, you should immediately declare that there is a conflict of interest, explain what it is, and recuse yourself from the discussion and the decision-making process.

<b>HGI Board</b>			
<b>Name</b>	<b>Position</b>	<b>Nature of potential conflict of interest</b>	<b>Date notified</b>
